Vladimir Stasenko

Senior iOS-Developer
Sofia, Sofia City, Bulgaria

Summary

iOS developer with 9+ years of iOS development (7+ years of Swift
and 3 years of Objective-C experience).
Looking for a remote job.

Experience

Prolev Technologies, LLC
Senior iOS-Developer
June 2022 - September 2023 (1 year 4 months)
Sofia, Bulgaria

I was developing a client-server application using GraphQL, solving
architectural problems, optimizing logic in huge models, and cleaning up
unnecessary code.

Tech stack:
Programming languages: Swift
Parsing response: Codable
Version control: Git, CI/CD (Bitrise, Jenkins)
Dependency manager: SPM/CocoaPods
UI layout: SwiftUI, NSLayoutAnchor
Frameworks: Combine, VisionKit
Patterns: MVVM
Design: Figma
Task Tracker: Jira, Confluence
SDLC: Scrum (2 weeks sprints)

ESN
Middle iOS-Developer
March 2022 - May 2022 (3 months)
Moscow, Moscow City, Russia

Our team was bought by ESN company and we continue working on ChipZ
app for viewing short videos (like TikTok).

With my team, I developed an application for viewing short videos (like in Tiktok) we called it ChipZ. The application was written in Swift using Combine. The app is in active development and is not published to the AppStore yet.

Tech stack:
Programming languages: Swift
Parsing response: Codable
Version control: Git
Dependency manager: SPM
UI layout: NSLayoutAnchor, PinLayout
Frameworks: Combine
Multithreading: GCD
Proxying: Charles
Patterns: MVC
Design: Figma
Task Tracker: Jira, Confluence
Team collaboration: Miro
SDLC: Kanban

Digital Horizon VC
Middle iOS Developer
September 2021 - February 2022 (6 months)
Moscow, Moscow City, Russia

With my team, I developed an application for viewing short videos (like in Tiktok) we called it ChipZ. The application was written in Swift using Combine. The app is in active development and is not published to the AppStore yet.

Movavi
Middle iOS Developer
June 2021 - September 2021 (4 months)
Moscow, Moscow City, Russia

Tech stack:

Programming languages: Swift

Parsing response: Codable

DI: Swinject

Version control: Git/GitFlow, CI/CD (Jenkins/Fastlane)

Dependency manager: CocoaPods

UI layout: SnapKit

Analytics: Firebase, Amplitude

Frameworks: RxSwift, Lokalise

Multithreading: GCD, RxSwift

Patterns: MVVM

Design: Figma

Task Tracker: Jira, Confluence

Team collaboration: Miro
SDLC: Kanban

Home Credit and Finance Bank
Middle iOS Developer
November 2016 - March 2021 (4 years 5 months)
Moscow, Russian Federation

I joined developing the banking application HomeCredit on Objective-C, then we migrated to Swift. After a year, we almost completely complete the migration on Swift. In the early stages of development, the application was written with MVC pattern and then we moved to VIPER. I was involved in adding deeplinks functionality, adding app analytics, GoogleMaps and just general development.

Tech stack:
Programming languages: Swift, Objective-C
Frameworks: UIKit, Foundation, CoreLocation, PromiseKit, Lottie
Multithreading: GCD, PromiseKit
Networking: URLSession
Parsing response: JSONModel, Codable
DI: Swinject, Typhoon
Version control: Git/GitFlow, CI/CD (Jenkins/Fastlane)
Dependency manager: CocoaPods

Unit testing: XCTest

UI layout: SnapKit, NSLayoutAnchor

Proxying: Charles

Analytics & deeplinks: AppsFlyer, Firebase

Patterns: VIPER, MVC

Design: Figma, Sketch, Adobe XD

Task Tracker: Jira

Team collaboration: Miro

SDLC: Agile, Scrum, Kanban, SAFe

Try'n'Pay
Middle iOS Developer
February 2015 - October 2016 (1 year 9 months)

Software to optimize the operation of courier delivery. Automatic creation of route sheets, tracking couriers, delivery control, acquiring mobile, integration with CMS: Umzila.

Two applications for dating: Halal (for Muslims) and Rabbit Habit.

Mobius Telecom
1 year 5 months

Middle iOS Developer
October 2013 - November 2014 (1 year 2 months)

Moscow City, Russia

Junior iOS Developer
July 2013 - September 2013 (3 months)

I develop VOIP, SIP, IP-telephony application.

Aplica
Junior iOS Developer
February 2013 - June 2013 (5 months)

I developed application for internet store.

Education

Moscow Humanitarian-Technical Academy (former Moscow Economic and Linguistic Institute)
Specialist, Applied Informatics · (2008 - 2013)

Russia, Moscow 980

Specialist, Information Technology · (1997 - 2008)
